

The DM-58N dynamic microphone with a switch has an insert with a supercardioid frequency response, which ensures high sound quality in various applications, mainly stage and vocal. The microphone has a solid metal housing. The set includes a microphone holder and a case.

TECHNICAL DATA	DM-58N
Frequency response	50 Hz - 16 000Hz
Sensitivity 1 kHz	- 51dB ( ±1,5dB/1V/Pa )
Impedance	520Ω
Characteristics	directional supercardioid
Dimensions [mm]	164 x 51 mm
Weight [g]	350g
