

Portable sound system with a set of Z-2 microphones, designed to sound for pilgrimages, funerals, school trips (small spaces) and for rooms. It is equipped with internal, really efficient 14,4V lithium-ion battery Has a built in battery state indicator, which shows when it needs to be charged It has installed sockets for connecting: a microphone and a power supply for charging the battery. It has wireless microphone volume control, cable microphone volume control, tone control (bass, soprano) and activation signaling. Working time 4 hours. The housing is made of an aluminum section painted with powder paint. The set includes a microphone and an optional wireless microphone.

Technical data	Z-2
Rated power	40W
Supply voltage (internal battery)	14,4V
Efficiency (1W/1m)	91 dB
Max efficiency	102 dB
Frequency response	120 - 18 000 Hz
Operating frequency of the kit [MHz]	480-680
Working time of the battery after full charge	4 godz.
Audibility Range	From 25m to 100m(Dependent on weather/noise of the enviroment)
Wired condenser microphone	DM-555
Dimensions (Height/Width/Depth) [cm]	19,5x10x6,7
Weight [kg]	1
