

Modern portable sound system ZP-46 is designed for processions, pilgrimages, open spaces, as well as for rooms, conference halls, etc. It includes six speakers in a column, a radio transceiver set, an amplifier and a battery. The amplifier operates in class T, characterized by great efficiency, which allows for extended operating time. The kit includes a battery charger, harness and a stand.

Technical data	
Rated power	40W
Number of 3,5" neodymium speakers	6pcs.
Working frequency [MHz]	471 - 494 502 - 525 571 - 580 671 - 680 823 - 865
Powering the microphone	2 x AA 1.5V alkaline batteries
Music player	MP3
Remote (music player')	yes
Supply voltage - internal battery (NI-MH)	12V DC
Frequency response of the column [Hz] [Hz]	150 - 18000
Audibility Range	From 50 to 100m (Depends on the weather condition)
Wireless microphone range [m]	75
Working time of the battery after full charge [godz .]	6
Height without the stand [cm]	142
Weight without the stand [kg]	4,9
Weight of the aluminum stand [kg]	2,7
